

MD NAZMUS SHAKIB

Khulna, Bangladesh | MERN Stack Developer | Full Stack Developer
+8801302230277 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | shakibn2004@gmail.com

OBJECTIVE

Motivated and detail-oriented MERN Stack Developer proficient in MongoDB, Express.js, React, Node.js, and Next.js. Adept at building responsive, scalable, and user-centric web applications through hands-on project experience. Passionate about writing clean code, solving complex technical challenges, and continuously adapting modern web standards to deliver impactful solutions.

SKILLS

Frontend: Next.js 16, React.js, JavaScript(ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design, Hero UI, Motion Framer

Backend: Node.js, Express.js, REST API Development, MongoDB, JWT Authentication, Middleware

Tools & Platforms: Git, GitHub, VS Code, Postman, Better Auth, Stripe, Figma, npm, Vercel, Netlify

Soft Skills: Problem Solving, Analytical Thinking, Communication, Adaptability, Quick Learner

PROJECTS

NomadAI – Agentic AI Travel Planner [Live link](#) | [Client](#) | [Server](#)

Description: Context-aware Agentic AI travel planning web application dynamically generating and personalizing itineraries based on user budget, weather, and preferences.

- **Context-Aware Itineraries:** Engineered an agentic AI engine for personalized multi-day travel itineraries based on travel style & budget.
- **Real-Time Adaptation:** Implemented automated triggers to recalculate schedules for flight delays and adverse weather conditions.
- **AI Travel Assistant:** Developed a fast Next.js & Tailwind CSS AI chat interface for instant local recommendations and tips.

Tech Stack: Next.js 16, React.js, Node.js, Express.js, Motion, Tailwind CSS, MongoDB, AI Integration

SparkLift – Premium Crowdfunding Platform [Live link](#) | [Client](#) | [Server](#)

Description: Modern luxury crowdfunding platform empowering creators to launch campaigns, engage backers, and manage project funding seamlessly.

- **Campaign Discovery:** Built dynamic project exploration hub with real-time funding progress bars, category filters, and search.
- **Campaign Workflow:** Created intuitive portals for creators to set funding targets, configure reward tiers, and post updates.
- **Glassmorphic Design:** Engineered a responsive UI featuring glassmorphism, dark/light mode toggling, and smooth transitions.

Tech Stack: Next.js 16, React.js, Node.js, Express.js, Tailwind CSS, MongoDB, JWT Authentication

BloodBridge – Direct Blood Donation Platform [Live link](#) | [Client](#) | [Server](#)

Description: Life-saving community web application connecting voluntary blood donors directly with recipients in urgent need across Bangladesh.

- **Emergency Request Feed:** Developed real-time blood request board with urgency badges, hospital location, and deadline tracking.
- **Smart Donor Search:** Implemented comprehensive donor directory with blood group, district, and upazila filtering.
- **Role-Based Portals:** Designed secure donor/volunteer dashboards to manage request postings and availability history.

Tech Stack: Next.js 16, React.js, Node.js, Express.js, Tailwind CSS, MongoDB, JWT Authentication

EDUCATION

Bachelor of Building Engineering and Construction Management (BECM)

Khulna University of Engineering & Technology (KUET), Khulna 9203, Bangladesh | 2024 – Present

Complete Web Development Course | Programming Hero | Dec 2026

LANGUAGE

Bangla: Native / Fluent | **English:** Professional / Fluent
